

DEPARTMENT OF COMMERCE
BUREAU OF FISHERIES

EEB

Cordova

March 2, 1923.

The Commissioner of Fisheries,
Washington, D. C.

Receipt is acknowledged of office letter of February 14, stating that 12 fishing operators in this district have not yet mailed to the Washington office 1922 statistical report on Form 632.

These men have all been written to-day, and additional forms have been sent to them.

It is noted in the memorandum at the bottom of the letter above referred to that the Seattle office was instructed to telegraph for these reports. No telegram was received at the Cordova office. However, if the individual operators were telegraphed, these letters which are being forwarded to-day will probably hasten the forwarding of the report.

Shirleya Baker
Assistant Agent.

Copy for Seattle Office..
